Antilles Consulting Group, LLC Earns Dual SBA Certifications as Woman-Owned Small Business and HUBZone-Certified Firm

Saint Thomas, United States Virgin Islands – February 2026 – Antilles Consulting Group, LLC, a premier provider of government consulting services with deep expertise in federal contracting, proudly announces its certification by the U.S. Small Business Administration (SBA) as a Woman-Owned Small Business (WOSB) and a HUBZone small business.

These designations recognize the firm's majority woman ownership and its principal office location in a Historically Underutilized Business Zone, qualifying it for set-aside contracts, sole-source opportunities, and preferences in federal procurement. The certifications enhance Antilles Consulting Group's ability to deliver strategic support to government agencies while advancing economic development in underserved areas.

"We are thrilled to achieve WOSB and HUBZone status, in addition to our current Service-Disabled Veteran Owned Small Business (SDVOSB) certification," said Kristyn Jones, Antilles CEO and former Assistant Secretary, Financial Management and Comptroller of the Department of the Air Force, who also performed the duties of Undersecretary of the Department of the Air Force. "These certifications open new pathways for us to compete for federal contracts and contribute to SBA goals of awarding at least 5% of contracting dollars to WOSBs and 3% to HUBZone firms."

With over 60 years of combined military and industry experience, Antilles Consulting Group is committed to excellence in service to the Government Contracting community.
